

QUICKEN THE PACE WITH THE COMPETITION PACKAGE.

For the all-out racing experience, the Competition Package delivers. The BMW M TwinPower V8 engine bulks up with 40 extra horsepower to produce 600 hp.¹ The Sport Exhaust System takes on a more full-throated sound. The suspension is lowered for even flatter cornering and steering is retuned to evoke the precise, responsive feel that race drivers often demand. 20" M Double Spoke light alloy wheels round out the racing character of a BMW M that's ready to dominate – on and off the track.
